**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/30/08 has been entered.
2. The amendment filed 1/30/08 has been entered. Claims 10-11 and 19-20 have been canceled. New claims 21-25 have been added. Claims 1, 3-9, 12-18 and 21-25 are pending in the application. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Objections***

3. Claim 3 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 3 recites that at least one of said A layers further comprises an HDPE however the parent claim 1 has been amended to recite that the skin layers comprise 15-5wt% HDPE.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1794

5. Claim 1, 3-9, 12-18 and 21-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1, 21 and 25 recite the limitation "mLLDPE having a density between about 0.918 and 0.927 g/cm<sup>3</sup>" however in reviewing the specification again, it is noted that the example mLLDPE relied upon to support the previous amendment to the lower value of the range only recites a density of 0.918 g/cm<sup>3</sup>, not "**about** 0.918 g/cm<sup>3</sup>" (emphasis added.) Hence, the Applicant does not appear to have support for the broader endpoint of "about 0.918 g/cm<sup>3</sup>" as instantly claimed. In addition, the original disclosure at the time of filing does not appear to support an endpoint of 99wt% mLLDPE as recited in new claim 21.

6. Claims 1, 3-9, and 12-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites the limitation "said skin layers are each independently selected from a blend comprising 85-95wt.% mPE" in lines 5-6 however in lines 1-2 the claim recites that "the A layers are skin layers...each independently comprising an mLLDPE". Hence, it is unclear whether the weight percentage of 85-95wt% of mPE is referring to the previous cited mLLDPE or mPE in general.

#### ***Double Patenting***

7. Claims 1, 3-9, 12-18 and 21-25 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 23-35 and 37-49 of copending Application No. 10/803,318 for the reasons recited in the prior office action.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Response to Arguments***

8. Applicant's arguments with respect to claims 1, 3-9, 12-18 and 21-25 have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R. Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 10:00AM-5:00PM.
